and NSD File No. L-00-72.

Dear FCC:

I strongly feel that the FCC should impose at least a \$50.00 per month surcharge to compensate the victims of automobile crashes and injuries caused by persons talking on their Cell Phones while driving. Furthermore I feel that more automobile accidents are caused by cell phone drivers than by drunk drivers.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Jen Johnson
